

WHAT'S IN STORE FOR OUR WATERSHED NOW?

BUSINESS AS USUAL

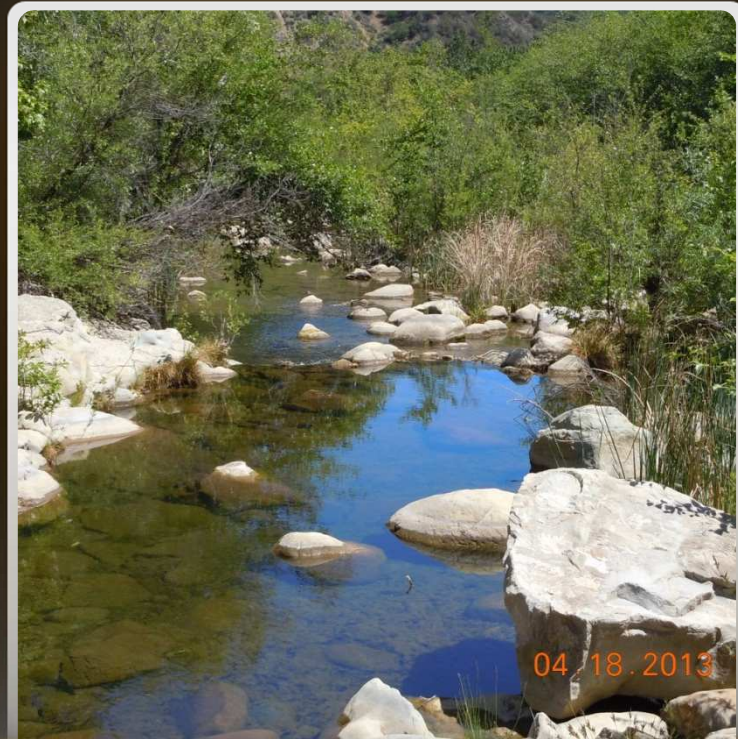

Oso rd to Robles Diversion

Business as usual

WHAT WOULD WE LIKE TO
SEE YEAR AROUND?

This of course!

Camino Cielo Bridge

OR THIS!

WHAT ARE SOME OF THE OBSTACLES NOW AND
IN THE FUTURE WE MUST NAVIGATE?

RAINFALL!!

- What can we do about it?
- How do we insure reliability of the source?
- Constant renewable source for all agencies pulling from the river
- Responsible pumping (only use or pump what we need)
- Communication with local pumpers – Ag users – customers about the constant changing conditions in our watershed

WHAT COULD DIMINISH OUR ABILITY TO PUMP
WATER IN THE FUTURE?

FISH

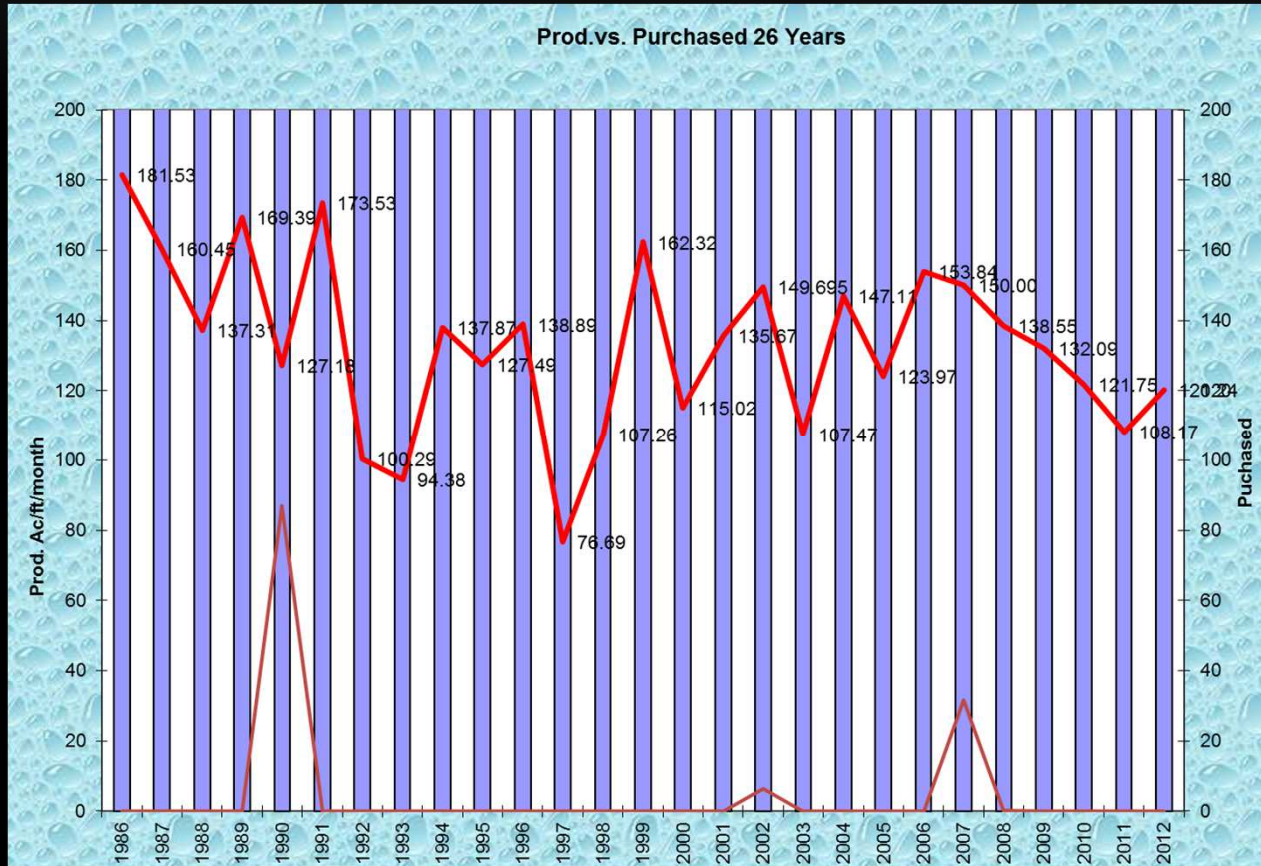

HOW DO WE FIX THAT PROBLEM?

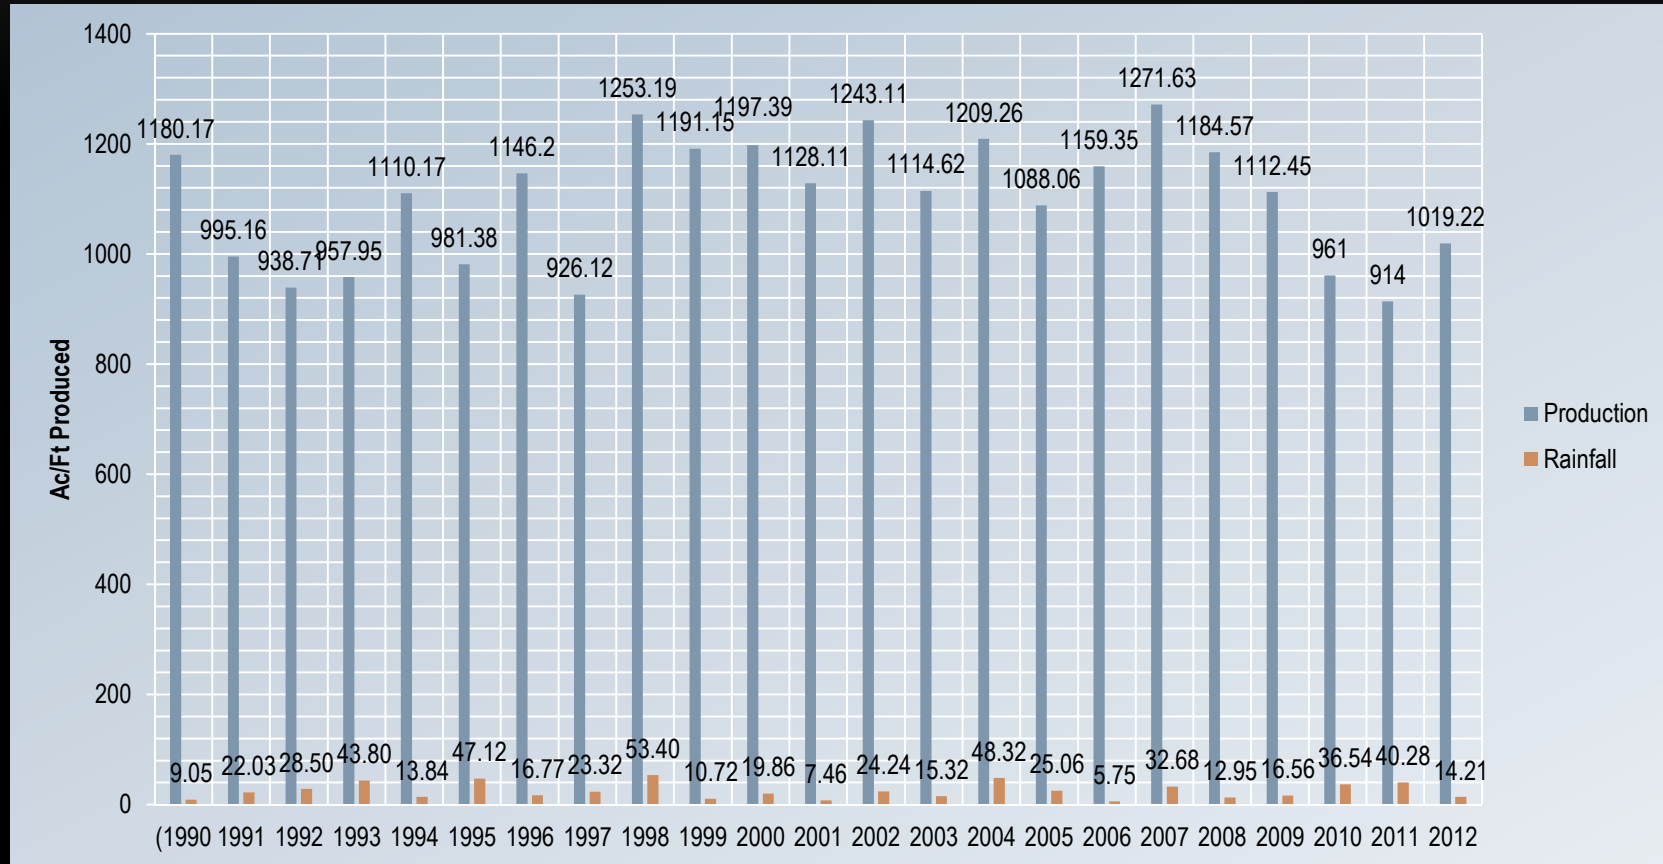

- Mutual collaboration with;
- Other pumpers in the river
- Other users in the river
- Our customers
- Regulatory agencies
- Special interest groups

WHERE ARE WE NOW?

PRODUCTION VS. PURCHASED

RAINFALL VS. PRODUCTION

Season Rain Totals 04-Present
