

Ventura River Watershed Resilience Plan

Prepared By Ventura County
Resource Conservation District
3380 Somis Road Somis, California 93066

Prepared with the Assistance of
Rincon Consultants, Inc.
2060 Knoll Drive, Ventura, California 93003

Table of Contents

Table of Contents.....	i
Acknowledgements.....	vii
Executive Summary.....	ix
Acronyms	xvii
Chapter 1: Introduction	1
Land Acknowledgment.....	1
Plan Purpose and Objectives.....	1
VRWRP Vision Statement and Guiding Principles.....	4
Statewide Watershed Resilience Initiative and Funding Program.....	5
Plan Organization	5
Planning History and Context in the Watershed.....	5
2015 Ventura River Watershed Management Plan	9
Chapter 2: Watershed Network.....	10
Introduction	11
Foundation of the Watershed Network.....	11
Governance Structure for the VRWRP	11
Advisory Group Formation and Purpose.....	12
Advisory Group Protocols and Decision-Making.....	12
Review and Endorsement Process	12
Engagement Approach.....	12
Watershed Resilience Plan Website.....	14
Key Partner Interviews	14
Watershed Council Meeting Presentations	15
Advisory Group Engagement.....	15
Forums and Workshops.....	15
Tribal Engagement.....	15
Focused Engagement with Overburdened and Frontline Communities.....	17
Assessment of Existing Regional Networks.....	18
Introduction.....	18
Methods Summary	19
Results and Discussion	19
Climate and Water Resilience	22
Social Network Analysis.....	28
Case Studies.....	36
Recommendations	37
Summary and Conclusion.....	38

Chapter 3: State of the Watershed	40
Introduction	41
Overview of the Ventura River Watershed	42
Subwatersheds	42
Climate, Hydrology, and Ecology.....	44
Major Developments Influencing Current Watershed Conditions.....	44
Communities and Land Use.....	45
Hydrologic and Ecological Degradation.....	47
Relationship to Sustainable Groundwater Management Act and Groundwater Management	48
Watershed Recreation.....	48
Water Resource Systems	49
Water Supply	50
Flood Management	54
Groundwater Management	55
Ecosystems	57
Water Quality	60
Cultural Resources.....	61
Current Climate Hazards	63
Definitions	64
Historical Watershed-wide Water Budget	70
Understanding the Watershed’s Historical Water Budget.....	70
Summary	70
Key Watershed Problems and Challenges	72
Chapter 4: Future Climate Conditions	74
Introduction	75
Methodology and Assumptions	75
Global and California Climate Projections.....	75
Application to the Ventura River Watershed	75
Global Warming Levels.....	76
Hydrologic and Coastal Projections.....	77
Summary of Results	77
Relationship to Prior Climate Studies and Sustainability Plans	78
Extreme Heat Discussion.....	79
Drought Discussion	83
Precipitation Discussion	85
Median Annual Precipitation.....	85
Daily Precipitation	88
Back-to-Back Heavy Rain Events	90

Wildfire Discussion	91
Marine Fog Discussion	91
Sea Level Rise and Storm Surge Discussion	92
Chapter 5: Climate Change Vulnerability	96
Introduction	97
Definitions	97
Assessment Approach	98
Qualitative Assessment	98
Methodology	98
Results	102
Quantitative Assessment	112
System Performance Metrics and Thresholds	113
Methodology	113
Hydrologic Projections	115
Hydraulic Assessment.....	115
Vulnerability Assessment and Priority Adaptation Strategies	116
Discussion	117
Chapter 6: Adaptation Strategies, Actions, and Implementation Roadmaps.....	118
Introduction	119
Approach	119
Methodology	119
Adaptation Strategies and Actions.....	122
Implementation Roadmaps.....	164
Chapter 7: Performance Indicators for Watershed Resilience	203
Introduction	204
Alignment with Statewide Indicators & Existing Local Monitoring.....	204
VRWRP Indicators	205
Using Indicators in Implementation.....	208
Chapter 8: Conclusion	209
Recommendations and Next Steps	210
Strengthen Multi-Agency Coordination Through the Watershed Council.....	210
Maintain and Evolve Network Tools as Living Resources	210
Expand Inclusive Participation & Strategic Partnerships	210
Coordinate Funding Strategies & Pursue Large-Scale Resilience Investments.....	210
Establish an Annual Progress Reporting Process for Adaptive Management.....	210
Follow a Clear Near-Term Timeline for Plan Adoption & Early Implementation.....	211
Maintain the Watershed Resilience Plan as a Dynamic Resource	211

Appendices

Appendix A	Glossary of Terms
Appendix B	Related Reports, Resources, and Programs
Appendix C	Watershed Council Charter
Appendix D	Advisory Group Policies and Procedures
Appendix E	Engagement Materials
Appendix F	Summary of Feedback Received
Appendix G	Tribal Engagement Report
Appendix H	CAUSE Engagement Final Report
Appendix I	CSU Network Assessment Report
Appendix J	Data Gaps and Limitations
Appendix K	Hydrologic and Ecological Degradation
Appendix L	Water Resource Systems

Appendix M	Historical Climate Events
Appendix N	Historical Water Budget
Appendix O	Problem Statements
Appendix P	Qualitative Vulnerability Assessment Results
Appendix Q	Quantitative Assessment

Acknowledgements

The Ventura River Watershed Resilience Plan (VRWRP) reflects the commitment, collaboration, and deep local knowledge of the many partners who contributed their time, expertise, and lived experience throughout this multi-year planning process.

Funding Acknowledgement: California Department of Water Resources

Funding for this project has been provided in full or in part from the Budget Act of 2022 and through an agreement with the California Department of Water Resources (DWR).

Ventura County Resource Conservation District

The Ventura County Resource Conservation District (VCRCD) served as the grant recipient and project administrator for the VRWRP, managing the agreement with DWR, overseeing project coordination, and guiding the VRWRP planning process.

Ventura River Watershed Council

The planning process was overseen by the Ventura River Watershed Council, the long-standing collaborative network that supports watershed coordination, shared learning, and inclusive engagement across more than 500 partners. The Council's ongoing leadership, public meetings, and guidance were foundational to this Plan.

Tribal Government Partnership and Engagement

We extend deep appreciation to the Barbareño/Ventureño Band of Mission Indians (BVBMI) for their thoughtful review, cultural guidance, and sustained engagement throughout the planning process, including co-hosting the final public forum. Their leadership enriched the VRWRP's approach to cultural resources and watershed stewardship.

Community Members

Thank you to the community members who participated in public forums, focus groups, and surveys. Your experiences and perspectives shaped the priorities and solutions reflected in the VRWRP. Community-identified needs and observations directly informed the vulnerability assessment and adaptation strategies.

Project Team

The VCRCD team provided leadership, coordination, and communication support throughout the planning process. We extend special thanks to the VCRCD staff whose sustained efforts were critical to advancing this work:

- Jamie Whiteford – Executive Director
- Lauren Zaragoza – Resource Conservation Specialist
- Mary Reyes – Conservation Education and Outreach Coordinator

The VRWRP is a coordinated effort led by the VCRCD, in partnership with:

- Lynn Rodriguez – Project Manager
- Lara Shellenbarger – Project Manager
- Rincon Consultants, Inc. – Technical Lead

- Eagle Rock Analytics – Technical Support
- Stantec, Inc. – Technical Support
- BVBMI – Tribal and Cultural Resources Advisor
- Native Coast Action Network – Tribal and Cultural Resources Support
- Central Coast Alliance United for a Sustainable Economy – Community Engagement Support
- California State University Northridge; Center for Geospatial Science & Technology – Network Mapping Lead
- California State University San Bernardino; Institute for Watershed Resiliency – Network Mapping Lead
- Loyola Marymount University; Center for Urban Resilience – Network Mapping Lead

Each team member brought complementary expertise in water resources, climate science, facilitation, engagement, Tribal partnership, vulnerability assessment, and planning.

Advisory Group (AG)

The AG, a subset of the Watershed Council, played a central role in shaping the VRWRP. This diverse group convened regularly to provide technical knowledge, review draft chapters, and ensure that local priorities and lived experience guided the VRWRP’s direction. AG members included:

- Barbareño/Ventureño Band of Mission Indians – Julia Samaniego
- Central Coast Alliance United for a Sustainable Economy – Cameron Yee, Kristian Nunez
- Chumash Elder and Educator – Julie Tumamait-Stenslie,
- City of Ventura – Jennifer Tribo, Sarah Mulder, Peter Shellenbarger
- County of Ventura Watershed Protection District – Earthea Nance, Pam Lindsey
- Farm Bureau of Ventura County – Jodi Switzer, Maureen McGuire
- Meiners Oaks Water District – Christy Cooper, Justin Martinez
- MERITO Foundation – Rocío Lozano-Knowlton
- Native Coast Action Network – Carlie Domingues
- Ojai Basin Groundwater Management Agency – Cece Vandermeer
- Ojai Valley Fire Safe Council – Chris Danch, Kalli O’Conner
- Ojai Valley Land Conservancy – Tom Maloney, Vivon Crawford Sedgwick, Martin Schenker
- Ojai Valley Sanitation District – Scott Meckstroth, Allison Young
- Santa Barbara Channelkeeper – Nate Irwin
- Surfrider Foundation – Paul Jenkin
- Upper Ventura River Groundwater Agency – Bryan Bondy
- Ventura County Board of Supervisors – Office of Matt LaVere
- Ventura Land Trust – Melissa Baffa, Laura Pavliscak, Dan Hulst
- Ventura River Water District – Alma Quezada, Bruce Kuebler
